

ADVANCED Plastic Surgery Center

FALL 2003

Total Spa Care
in a Medical
Environment

NEW SURGERY CENTER AND SPA OPENING SOON AT PRESCOTT LAKES

CONSTRUCTION IS UNDERWAY and a fall opening is planned for the Advanced Plastic Surgery Center's new 5,000-square-foot facility at Prescott Lakes. The beautiful new center will include the medical-surgical practice of Mark D. Fetter, M.D., and a new spa offering a full array of relaxing and rejuvenating treatments.

The new Advanced Plastic Surgery Center building is atop the hill in the Petroglyph Office Park at Prescott Lakes near the corner of Prescott Lakes Parkway and Blooming Hills Drive. The address is 1615 Petroglyph Pointe Drive.

Dr. Fetter, director and surgeon, said the growing number of patients requesting cosmetic and reconstructive surgical procedures along with the center's skin care clients requires a larger facility.

The new center will include an outpatient surgery suite equipped with the latest state-of-the-art technology, a post-operative recovery area, examination and treatment rooms, a private patient consultation office, a two-story tall reception lounge, and the spa. The surgery

suite will be equipped with endoscopic, liposuction and laser systems.

Twin Lakes Spa, a new spa offering spa services in a medical environment, will offer a full spectrum of facial and body treatments, including therapeutic massage, facial peels, replenishing facials, and waxing.

"While planning the new building, we listened to our patients who told us they would enjoy being pampered in a relaxing environment once in a while, so we dedicated space for the spa services," Dr. Fetter said.

An excellent menu of spa services is already available to the public. See the article on the back page. Patients and spa clientele will continue to be seen as usual at our current location at 1055 Iron Springs Road until the new center opens.

Comments may be sent to the practice by email to plasticsurgeon@cableone.net

A certified diplomate of the American Board of Plastic Surgery and the American Board of Surgery, Dr. Fetter said that his patients' loyalty and confidence, as well as their referrals, have enabled steady growth of the practice. Dr. Fetter began serving patients in the Prescott area in 1996, and now sees patients from throughout Northern Arizona.

Architectural design of the new center was provided by Taylor Architects of Prescott, and Dick Haines, an architect for Medical Design International in Tucker, Georgia. Construction is by MacMillan Construction Co. of Prescott.

Dr. Fetter, who also specializes in microsurgery of the hand, said that in addition to reconstructive procedures to correct the effects of diseases and injuries, the center will offer facelifts, nose and ear surgery, liposuction, breast augmentation and lifts, tummy tucks, laser resurfacing, and treatment for spider veins. Also available at the center are Botox[®], collagen and Cymetra injections, microdermabrasion, and Pevonia, BioMedic, and Obagi skin care products.

DR. FETTER PERFORMS ALL FACIAL AND BODY SURGICAL PROCEDURES

Mark D. Fetter, M.D., who heads the Advanced Plastic Surgery Center, is an exquisitely trained plastic surgeon offering the complete range of facial and body procedures, and he is a specialist in performing delicate hand procedures. He has served patients from throughout Northern Arizona since 1996.

A Certified Diplomate of the American Board of Plastic Surgery and the American Board of Surgery, Dr. Fetter earned his medical degree at Wright State University School of Medicine in Dayton, Ohio. He completed a general surgery residency at the Medical College of Ohio, followed by a residency in plastic surgery at The Cleveland Clinic Foundation. He served as a hand surgery Fellow at Rush-Presbyterian-St.

Dr. Fetter

Luke's Medical Center in Chicago.

Dr. Fetter, a staff member at Yavapai Regional Medical Center in Prescott, is a Fellow of the American College of Surgeons, and a member of the American Society of Plastic Surgeons, the American Medical Association, and the Arizona State Medical Association. He also serves as a faculty member at Midwestern University College of Osteopathic Medicine.

He and his wife Karin have three sons and they reside in Prescott.

Twin Lakes Spa NOW AVAILABLE

WE ARE PLEASED TO INTRODUCE the new Twin Lakes Spa offering treatments to enhance your health and appearance.

Unwind and rejuvenate with wonderful spa treatments in the safe environment of our medical center. This combination of medical grade care and spa services is known as a medi-spa. Twin Lakes Spa is the first of its kind in Central Arizona to offer this exciting concept.

Treatments ranging from aroma therapy facials to firming masque applications are provided by a licensed aesthetician. Our aesthetician offers a full spectrum of care,

specializing in facials, lymphatic drainage massage, speed waxing, body wraps, and more.

We offer complete lines of select skin care products by Pevonia, BioMedic, and Obagi.

Relaxing spa treatments will be available at our current location at 1055 Iron Springs Road in Prescott until the opening this fall of the facility at Prescott Lakes, the beautiful new location of the Advanced Plastic Surgery Center and Twin Lakes Spa.

Twin Lakes Spa...total spa care in a medical environment. Call 777-0200 and schedule your soothing appointment today.

ANCIENT ROCK ART ENCOURAGED NEW LOGOS

THE LOCATION OF OUR NEW CENTER in the Petroglyph Office Park has encouraged the design of new graphic symbols representing the surgical practice and the medi-spa. The Petroglyph Office Park is atop the hill at Prescott Lakes near the corner of Prescott Lakes Parkway and Blooming Hills Drive. The site was part of a large field of petroglyphs...artistic symbols carved into rocks by ancient tribes. The developers preserved the petroglyphs which can be seen in seven public mini-parks within

Prescott Lakes. Here are the new logos. The rock art symbol in the Advanced Plastic Surgery Center logo is known to represent a place of emergence. The logo for the Twin Lakes Spa adopts symbols for water, representing our new location near Watson Lake and Willow Lake.
